

PHILOSOPHY

The Early Childhood Program focuses on preschool children aged 3, 4 and 5. The young child at this age is able to relate to the care and love of God through self-identity, nature and the love of others.

Therefore the Early Childhood Catechesis program focuses on teaching catechists HOW to help young children grow in their awareness of God - God the Creator, God the Loving Parent, God the Friend and the Wonderful World of God.

Guidelines for the Early Childhood Program

The Early Childhood program provides the following guidelines which promote child development principles, age appropriate activities and Catholic faith development.

1. Teachers should be certified.
2. Class size should be maintained as follows:
 - 3 year olds - maximum of 8
 - 4 year olds - maximum of 10
 - 5 year olds - maximum of 12
3. The principal catechist must be an adult.
4. Parents need to understand and support the philosophy of the program.
5. Approved textbooks and materials should be used.
6. Creative art experiences, music and movement activities should be used as often as possible.
7. Each lesson should be carefully planned.
8. Spontaneous prayer is the heart of every lesson and should be inserted throughout the class.
9. While scriptural themes are basic to the program, scriptural readings are not appropriate for this age group.
10. Strong, positive images of God are stressed.
11. Special celebrations are planned with the level of the child in mind.
12. Human, concrete experiences from the everyday life of the child form the basic "content" of this religion-readiness program.
